

Fix Your Own Wi-Fi: the one page

1 START HERE

run Test My Connection

2 WHERE DO I LOOK FIRST

Wi-Fi side weaker	→ look at the local connection
Internet side weaker	→ run it again, then work outward
Both healthy	→ try another app before changing anything
Could not check	→ run it again rather than guess

3 IF IT REALLY IS WI-FI

- 1 Reconnect the device
- 2 Move closer
- 3 Check the network
- 4 Get the box up and out
- 5 Reboot the right box, once

4 THE STOP LINE

copy the result, hand it off
